Introductory Note

Welcome to Bosnia and Herzegovina

– a country of opportunity, diversity, and strategic potential.

This informational brochure presents investment projects and business opportunities proposed by government institutions and private companies.

The information presented in this brochure is for informational purposes only, based on data submitted by project applicants and relevant institutions. The Ministry of Foreign Affairs of Bosnia and Herzegovina bears no responsibility for the accuracy, completeness, or implementation of individual projects. We strongly encourage you to contact the project applicants directly for additional information and details.

FOREIGN INVESTMENT PROMOTION AGENCY
OF BOSNIA AND HERZEGOVINA

Why Bosnia and Herzegovina?

- 1. Strategic Location**
- 2. Favourable Trade and Other Agreements**
- 3. Skilled Labour at Competitive Price**
- 4. Stable financial system**
- 5. Favourable Legal Environment**
- 6. Favourable Tax System**
- 7. Low Operating Cost**
- 8. Long Tradition of Industrial Excellence**
- 9. Attractive Investment Locations**

A night-time photograph of a modern city street. In the foreground, a curved pedestrian bridge with a glass railing and warm interior lighting spans over a road. To the right, a tall, modern building with a glass facade is illuminated, reflecting the city lights. The street below shows light trails from moving vehicles, and several streetlights cast a warm glow. The overall scene conveys a sense of urban infrastructure and modern architecture.

INFRASTRUCTURE, CONSTRUCTION & REAL ESTATE

A red tractor is shown from a side profile, moving from left to right across a vast, dark brown plowed field. The tractor is kicking up a cloud of dust or soil behind it. The field is divided into sections by furrows. In the background, there are some green trees and a distant town under a heavy, grey, and white cloudy sky. The overall scene is one of agricultural activity.

Hydro Power Plant Janjici – City of Zenica	JP Elektroprivreda BiH d.d. – Sarajevo	Zenica	Public	HPP Janjici is planned to be built on the Bosna River, with an installed capacity of 15,5 MW and an annual production of 77,3 GWh.	66.470.000	033 751 900 h.gadzo@epbih.ba
Hydro Power Plant Kovanići – City of Zenica	JP Elektroprivreda BiH d.d. – Sarajevo	Zenica	Public	HPP Kovanići, also planned to be built on the Bosna River, with the same projected capacity of 12,2 MW, and an expected annual production of 55,50 GWh.	46.020.000	033 751 900 h.gadzo@epbih.ba
Hydro Power Plant Ustikolina – Foča – Ustikolina / Goražde	JP Elektroprivreda BiH d.d. – Sarajevo	Ustikolina/ Goražde	Public	HPP Ustikolina is planned to be built on the River Drina, with the installed capacity of 60.48 MW and an expected annual production of 236.8 GWh.	141.630.000	033 751 900 h.gadzo@epbih.ba
Wind Power Plant Vlašić – Travnik	JP Elektroprivreda BiH d.d. – Sarajevo	Travnik	Public	Wind power plant Vlašić is planned in the area of Vlašić mountain with an installed capacity of 50 MW and an annual production of 120 GWh.	920.300.000	033 751 900 h.gadzo@epbih.ba
Wind Power Plant Bitovnja – City of Konjic	JP Elektroprivreda BiH d.d. – Sarajevo	Konjic	Public	Wind power plant Bitovnja is planned in the area of the municipality of Konjic, with the installed capacity of 85 MW and expected annual production of 190 GWh.	127.820.000	033 751 900 h.gadzo@epbih.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Photovoltaic Power Plant Gračanica 1 and 2 – Bugojno	JP Elektroprivreda BiH d.d. – Sarajevo	Bugojno	Public	Photovoltaic power plants Gračanica 1 & 2 are planned to be built on the closed waste landfill at the coal mine Gračanica in Bugojno municipality, with an installed capacity of 45 MW and a planned annual production of 68 GWh.	40.900.000	033 751 900 h.gadzo@epbih.ba
Photovoltaic Power Plant Gornja Breza – Breza	JP Elektroprivreda BiH d.d. – Sarajevo	Breza	Public	Photovoltaic power plant Gornja Breza is planned to be built in the outer landfill of the RMU Breza with an installed capacity of 15 MW and an annual production of 21 GWh.	11.250.000	033 751 900 h.gadzo@epbih.ba
Photovoltaic Power Plant Podveležje 1 and 2	JP Elektroprivreda BiH d.d. – Sarajevo	Mostar	Public	Photovoltaic power plant Podveležje 1 & 2 is foreseen within the concession area of the existing Podveležje wind farm, with an installed capacity of 45 MW and an expected annual production of 71 GWh.	36.810.000	033 751 900 h.gadzo@epbih.ba
Photovoltaic Power Plant Podveležje 3	JP Elektroprivreda BiH d.d. – Sarajevo	Mostar	Public	The second part of the project, Photovoltaic power plant Podveležje 3 with an installed capacity of 4.57 MW, is also planned for the concession area of the existing wind farm Podveležje 1. The expected annual production is 8.08 GWh.	4.600.000	033 751 900 h.gadzo@epbih.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Photovoltaic Power Plant Višća – City of Živinice	JP Elektroprivreda BiH d.d. – Sarajevo	Živinice	Public	Photovoltaic power plant Višća is planned to be built on the recultivated mine shaft of coal mine RMU Đurđevik, with an installed capacity of 8 MW i annual production of 12,2 GWh.	7.160.000	033 751 900 h.gadzo@epbih.ba
Photovoltaic Power Plant Banovići Selo – Banovići	JP Elektroprivreda BiH d.d. – Sarajevo	Banovići	Public	Photovoltaic power plant is planned to be built with the installed capacity of 8,36 MW and annual production of 12,50 GWh.	7.670.000	033 751 900 h.gadzo@epbih.ba
Photovoltaic Power Plant Divkovići 1 and 2 – Tuzla	JP Elektroprivreda BiH d.d. – Sarajevo	Tuzla	Public	Photovoltaic power plants Divkovići 1 and 2 are planned to be built on the former slag and ash landfill of the TPP Tuzla, with total installed capacity of 56 MW and expected annual production of 76 GWh.	39.880.000	033 751 900 h.gadzo@epbih.ba
Photovoltaic Power Plant Kreka Šićki Brod 1 and 2 - Lukavac	JP Elektroprivreda BiH d.d. – Sarajevo	Lukavac	Public	Photovoltaic power plant Kreka Šićki Brod is planned to be built on the closed landfill of the opencut Šićki Brod – Kalajevo, with a total installed capacity of 46 MW and annual production of 65 GWh.	36.810.000	033 751 900 h.gadzo@epbih.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Photovoltaic Power Plant Bedrok 1, 2 and 3 – City of Živinice	JP Elektroprivreda BiH d.d. – Sarajevo	Živinice	Public	Photovoltaic power plants Bedrok 1, 2 and 3 are planned to be built on the recultivated mine of the coal mine RMU Đurđevik, with total installed capacity of 32 MW and annual production of 47,2 GWh.	29.140.000	033 751 900 h.gadzo@epbih.ba
Photovoltaic Power Plant Potočari – City of Živinice	JP Elektroprivreda BiH d.d. – Sarajevo	Živinice	Public	Photovoltaic power plant Potočari is planned to be built on the recultivated mine shaft of the coal mine RMU Đurđevik in the City of Živinice, with total installed capacity of 16 MW and annual production of 23,60 GWh.	14.830.000	033 751 900 h.gadzo@epbih.ba
Combined Gas Power Plant	JP Elektroprivreda BiH d.d. – Sarajevo	Kakanj	Public	Combined gas power plant is planned to be built on the location of TPP Kakanj, with total installed capacity of 180 MW and additional capacity for the production of heat (35–65 MWt) for the need of district heating. Expected annual production is 800 GWh of electricity and 60 GWh of heat energy.	153.390.000	033 751 900 h.gadzo@epbih.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Photovoltaic Power Plant "EPHZHB 1" – Stolac	JP Elektroprivreda HZHB d.d. Mostar	Stolac	Public	Photovoltaic power plant FNE „EPHZHB 1“ is a large investment project in the field of renewable energy sources, based on the use of solar energy to produce electricity. By installing photovoltaic modules with a total power of 150 MW, the project has the potential of a significant contribution to energy transition, reducing greenhouse gas emissions and energy independence.	130.100.000	036 335 705 sonja.susac@epzhb.ba
Wind Power Plant Poklečani – Posušje	JP Elektroprivreda HZHB d.d. Mostar	Posušje	Public	Wind power plant Poklečani, is expected to have a total capacity of 132 MW and an annual production of 436,96 GWh, and is being developed as one of the strategic projects in the field of renewable energy sources.	198.900.000	036 335 705 sonja.susac@epzhb.ba
Pumped-Storage Hydropower Plant Vrilo – Tomislavgrad	JP Elektroprivreda HZHB d.d. Mostar	Tomislavgrad	Public	Pumped-storage hydropower plant Vrilo is a strategic energy project that involves the construction of a pumping hydroelectric power plant with installed capacity of 66 MW.	890.110.000	036 335 705 sonja.susac@epzhb.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Pumped-Storage Hydropower Plant Kablić – Livno	JP Elektroprivreda HZHB d.d. Mostar	Livno	Public	Pumped-storage hydropower plant is a planned hydroelectric investment aimed at building a modern pumped storage power plant with an installed capacity of 52 MW.	58.420.000	036 335 705 sonja.susac@ephzhb.ba
Hydro Power Plant Žepče – Žepče	JP Elektroprivreda HZHB d.d. Mostar	Žepče	Public	HPP Žepče, with installed capacity of 10,8 MW and annual production of 32,5 GWh, is designed to exploit the water potential of the river Bosna.	24.000.000	036 335 705 sonja.susac@ephzhb.ba
Hydro Power Plant Dubravica/Osova – Žepče	JP Elektroprivreda HZHB d.d. Mostar	Žepče	Public	HPP Dubravica / Osova with installed capacity of 10,8 MW and annual production of 32 GWh is planned as additional energy capacity in the Žepče region.	24.500.000	036 335 705 sonja.susac@ephzhb.ba
Hydro Power Plant Ugar Ušće – Jajce	JP Elektroprivreda HZHB d.d. Mostar	Jajce	Public	HPP Ugar Ušće with installed capacity of 11,6 MW and annual production of 33,19 GWh is designed as a small hydropower plant with a high degree of energy efficiency.	12.870.000	036 335 705 sonja.susac@ephzhb.ba
Hydro Power Plant Ivik – Jajce	JP Elektroprivreda HZHB d.d. Mostar	Jajce	Public	HPP Ivik is a planned hydroelectric power plant with installed capacity of 11,2 MW and annual production of 21,83 GWh.	7.300.000	036 335 705 sonja.susac@ephzhb.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Hydro Power Plant Vrljetna Kosa – Jajce	JP Elektroprivreda HZHB d.d. Mostar	Jajce	Public	HPP Vrljetna Kosa with installed capacity of 11,2 MW and annual production of 22,54 GWh is planned as another in a series of projects that contribute to the energy self-sufficiency of the Jajce region.	7.300.000	036 335 705 sonja.susac@ephzhh.ba
Hydro Power Plant Han Skela (HPP Bravnice) – Jajce	JP Elektroprivreda HZHB d.d. Mostar	Jajce	Public	HPP Han Skela (Bravnice) is designed with an installed capacity of 12 MW and annual production of 52 GWh.	29.500.000	036 335 705 sonja.susac@ephzhh.ba
Hydro Power Plant Skakala – Mostar	JP Elektroprivreda HZHB d.d. Mostar	Mostar	Public	HPP Skakala with planned installed capacity of 26,4 MW and annual production of 124,3 GWh is one of the most important projects in the development of the hydropower capacities of Herzegovina.	75.000.000	036 335 705 sonja.susac@ephzhh.ba
Wind Power Plant Velika Vlatna/ Jastrebnika – Mostar	JP Elektroprivreda HZHB d.d. Mostar	Mostar	Public	Wind power plant Velika Vlatna / Jastrebnika is planned to be with an installed capacity of 59,4 MW and annual production of 168,25 GWh.	89.310.000	036 335 705 sonja.susac@ephzhh.ba
Wind Power Plant Planinica – Mostar	JP Elektroprivreda HZHB d.d. Mostar	Mostar	Public	Wind power plant Planinica with installed capacity of 59,4 MW and planned annual production of 146,47 GWh represents an important step forward in increasing renewable energy capacity.	89.910.000	036 335 705 sonja.susac@ephzhh.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Wind Power Plant Crkvine – Neum	JP Elektro-privreda HZHB d.d. Mostar	Neum	Public	Wind power plant Crkvine, with installed capacity of 113,4 MW and annual production of 330,85 GWh, is one of the largest planned wind power plants in the Federation of BiH.	157.560.000	036 335 705 sonja.susac@ephzhb.ba
Wind Power Plant Velja Međa – Ravno	JP Elektro-privreda HZHB d.d. Mostar	Ravno	Public	Wind power plant Velja Međa, with installed capacity of 46,2 MW and annual production of 120,34 GWh, uses renewable resources in the less developed municipality of Ravno.	64.550.000	036 335 705 sonja.susac@ephzhb.ba
Wind Power Plant Ivanjica – Ravno	JP Elektro-privreda HZHB d.d. Mostar	Ravno	Public	Wind power plant Ivanjica is a smaller but strategically important project, with an installed capacity of 22 MW and an annual production of 55 GWh.	30.800.000	036 335 705 sonja.susac@ephzhb.ba
Rehabilitation and Modernization of Pumped-Storage Hydropower Plant Čapljina (Phase I and II)	JP Elektro-privreda HZHB d.d. Mostar	Čapljina	Public	The project involves the comprehensive renewal of the pumped-storage hydropower plant Čapljina, with the aim of extending its lifetime, increasing efficiency, reliability and safety of labor.	60.450.000	036 335 705 sonja.susac@ephzhb.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Revitalization of Hydro Power Plant Jajce II	JP Elektro-privreda HZHB d.d. Mostar	Jajce	Public	The project includes replacement of vital equipment and renovation of the plant to increase efficiency and reliability in operation. The aim is to modernize the power plant in accordance with the most modern standards.	28.400.000	036 335 705 sonja.susac@ephzhb.ba
Replacement of Primary Equipment in Hydro Power Plant Rama – Phase II	JP Elektro-privreda HZHB d.d. Mostar	Rama	Public	The project involves the replacement of key equipment in order to increase the reliability of HPP Rama's operation and to ensure a stable supply for decades to come.	14.900.000	036 335 705 sonja.susac@ephzhb.ba
Southern interconnection Bosnia and Herzegovina – Republic of Croatia	„BH-Gas“ d.o.o. Sarajevo	Southern interconnection B&H – CRO	Public	The project involves the construction of a two-way gas transport pipeline in the direction of the Republic of Croatia/ Bosnia and Herzegovina border - Posušje – Tomislavgrad – Bugojno – Novi Travnik with a total length of approximately 115 km, and in the direction Posušje – Mostar a total length of approximately 53 km. The project enables the diversification of supply routes and sources, and a greater flexibility of the energy sector.	185.000.000	033 724 220 direkcija@bh-gas.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Gasification of the North Part of the Federation of Bosnia and Herzegovina – Northern interconnection Bosnia and Herzegovina – Republic of Croatia	„BH-Gas“ d.o.o. Sarajevo	Northern interconnection B&H – CRO	Public	This infrastructure project aims to expand the gas network to the northern part of the Federation of BiH, through the construction of the transport gas in the direction of the Republic of Croatia/B&H (entrance of Orašje) - (Brčko) - Tuzla - Živinice - Maglaj - Zenica with a total length of approximately 160 km and the Živinice - Kladanj direction approximately 40 km. The project also foresees the transport hydrogen by the development of H2 markets.	220.000.000	033 724 220 direkcija@bh-gas.ba
Western interconnection Bosnia and Herzegovina – Republic of Croatia	„BH-Gas“ d.o.o. Sarajevo	Western interconnection B&H – CRO	Public	The project envisages the construction of a transport gas pipeline which will interconnect with the neighbouring Croatian transport gas system and which, through phased construction, will enable the safe and efficient supply of natural gas to the Una-Sana Canton. The infrastructure is planned as two-way and adapted to hydrogen.	217.000.000	033 724 220 direkcija@bh-gas.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Underground Storage of Natural Gas – Tetima, Tuzla	„BH-Gas“ d.o.o. Sarajevo	Tuzla	Public	The project envisages the construction of an underground natural gas storage facility in the former Tetima salt mine near Tuzla, with a capacity of at least 60 million m3. The storage facility will be connected to the transport system via the planned Kladanj-Tetima pipeline.	150.000.000	033 724 220 direkcija@bh-gas.ba
Conversion of the Existing Transport System	„BH-Gas“ d.o.o. Sarajevo	B&H	Public	The project refers to the conversion of the existing transport system, since it will be necessary to convert it in order to connect to the existing system and to improve the security of supply as the H2 market develops, and all for the purpose of adapting the pipelines and accompanying overhead facilities for the transport of the new energy source.	215.000.000	033 724 220 direkcija@bh-gas.ba
Project of infrastructure Renovation and Reconstruction of the Liquid Cargo Terminal in Mostar “Operator – Terminali Federacije” D.O.O. Sarajevo	“Operator – Terminali Federacije” d.o.o. Sarajevo	Mostar	Public	The renovation project includes repairs of the reconstruction and adaptation to EU standards and EU norms. The project consists of construction and environmental works, mechanical and electrical works, process automation and investment in measuring and control equipment.	40.900.000	033 720 770 protokol@terminali.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Project for Storage extension of the liquid cargo terminal „Operator – Terminali Federacije D.O.O. Sarajevo“	“Operator – Terminali Federacije” d.o.o. Sarajevo	Mostar, Živinice	Public	Project for the construction of new storage capacity for petroleum products (diesel, BMB, JET A1) covers the construction of five new tanks with total capacity of 120.000m ³ (12x10.000m ³) on the free construction location of the Mostar liquid cargo terminal and Živinice Terminal.	58.800.000	033 720 770 protokol@terminali.ba
Project for Storage extension of the liquid cargo terminal „Operator – Terminali Federacije D.O.O. Sarajevo“	“Operator – Terminali Federacije” d.o.o. Sarajevo	F BiH	Public	The project for the rehabilitation of existing gas balls with the installation of new system components enabling safe, efficient and environmentally friendly operation. Rehabilitation involves the reconstruction of three existing balls - the tank and the construction of one additional ball with auxiliary systems.	511.291,88	033 720 770 protokol@terminali.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

LNG TERMINAL - NTF D.O.O. Ploče	„Naftni Terminali Federacije“ d.o.o. Ploče	Ploče (CRO)	Public	The LNG Small Scale project on the free space site of the NTF d.o.o. in Ploče with a business model of functioning - “Tolling Model”. The LNG gas terminal would be supplied by sea - the ship barge from the nearest destinations (LNG Terminal Omišalj, island of Krk - Croatia, Rovigno - Italy and Revithoussa - Greece). LNG gas shipping would be carried out by truck tanks, truck containers and a wagon of tanks – by railway. LNG gas on the market of the Republic of Croatia, Bosnia and Herzegovina and neighboring countries would serve as a transitional ecological emergent to complete decarbonisation, it would also be used as a supplement in natural gas networks. In particular, it would have a role in agriculture using three types of energy (electricity, thermal energy and cooling) - a three-generation plant.	40.000.000	+385 20 679 455 ntf@ntf.hr
Project of renovation and reconstruction of infrastructure of the LIQUID CARGO TERMINAL „NTF D.O.O. Ploče“	„Naftni Terminali Federacije“ d.o.o. Ploče	Ploče (CRO)	Public	The renovation project includes repairs and reconstructions and adaptation to EU standards and EU norms. The project consists of construction and environmental works, mechanical and electrical works, process automation and investment in measuring and control equipment.	30.000.000	+385 20 679 455 ntf@ntf.hr

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Project for storage extension of the LIQUID CARGO TERMINAL „NTF D.O.O. Ploče“	„Naftni Terminali Federacije“ d.o.o. Ploče	Ploče (CRO)	Public	Project for the construction of new storage capacity for petroleum products (diesel, BMB, JET A1) covers the construction of five new tanks with total capacity of 50.000m ³ (5x10.000m ³) on the free construction location of the liquid cargo terminal “NTF d.o.o. Ploče”.	50.000.000	+385 20 679 455 ntf@ntf.hr
Federal program for the exploration of critical mineral raw materials	Geological Institute of Federation of Bosnia and Herzegovina	F BiH	Public	FBiH Geological Institute has started the implementation of the “Federal Program for the Exploration of Critical Mineral Resources”, which aims to bring to a certain degree of exploration all terrains on the territory of the Federation of BiH on which there are assumptions for finding deposits of critical mineral resources.	1.070.000	033 483 360 Vedad.Demir@fzzg.gov.ba
Geothermal Energy Research Program in Federation of Bosnia and Herzegovina	Geological Institute of Federation of Bosnia and Herzegovina	F BiH	Public	To increase the degree of exploration, increase the balance of reserves, more adequate exploitation, use and protection of geothermal energy deposits in the Federation of Bosnia and Herzegovina, it is necessary to draw up strategic documents, i.e. a study, on the basis of which it would be possible to make more strategic assessments and to direct exploration and investment.	272.186. 230	033 483 360 Vedad.Demir@fzzg.gov.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Strategic program for the exploitation of oil and natural gas in the Tuzla Basin	Geological Institute of Federation of Bosnia and Herzegovina	Tuzla Basin	Public	Geophysical surveys consisting of 250 km of linear 2D seismic imaging within the BiHTz exploration block, 1 568 km ² ; the application of split-spread receiving arrays with offsets up to 3000 m, a bin size of 25 m, and a 60-structure coverage of CMP points (Common Midpoint) and the processing of data using the Pre-Stack Time Migration (PSTM) methodology are to be carried out, and the resulting seismic data will form the basis for more detailed 3D modelling and selection of drilling sites.	4.190.000	033 483 360 Vedad.Demir@fzgz.gov.ba
Strategic program for the exploitation of oil and natural gas in External Dinarides	Geological Institute of Federation of Bosnia and Herzegovina	External Dinarides	Public	The planned exploration phase includes the acquisition of regional 2D seismic surveys, trap detection and thrust belt zone delineation, as well as field-based geological and geochemical investigations aimed at characterizing source rocks, reservoirs, and seals.	Available on request	033 483 360 Vedad.Demir@fzgz.gov.ba

ENERGY, ENVIRONMENT & NATURAL RESOURCES

Oil research program in the block of Central Bosnia and Herzegovina (CBiH)	Geological Institute of Federation of Bosnia and Herzegovina	Central Bosnia	Public	Confirming the deep structural configuration, thermal regime, and presence of structural traps requires the application of modern geophysical techniques, including gravimetric surveys and long-offset seismic acquisition. The project is currently in the planning phase, with a focus on defining exploration priorities.	Available on request	033 483 360 Vedad.Demir@fzzg.gov.ba
PHOTOVOLTAIC POWER PLANT "RMU BANOVIĆI" (Part I Phase)	RMU "BANOVIĆI" d.d. Banovići	Banovići	Public	By installing photovoltaic modules with a total installed capacity of 15 MW, which is part of the first phase whose total installed capacity will be 29.90 MW, the project has the potential of a significant contribution to the energy transition of the region according to clean energy.	17.310.000	035 870 600 kontakt@rmub.ba
PHOTOVOLTAIC POWER PLANT "RMU BANOVIĆI" (Part II Phase)	RMU "BANOVIĆI" d.d.
